OUR VISION

To be the leading, innovative learning institution that nurtures young minds to make the world a better place.

OUR MISSION

What we do
Discover, nurture, inspire, challenge and develop.

Who we do it for
Young Minds.

How we do it
Holistically. In a God fearing manner. To their fullest potential.

Children at the front and at the center

Kiota Kindergarten is a child centered institution where children will feel respected and honored, no matter their background or learning ability.

Our teachers are trained to be patient with children, even when they make mistakes.

They take time to work with children individually, in small groups and with the entire class to help them develop their cognitive and social skills, their language abilities and their interest in learning new things.

Our Program and Approach

At Kiota Kindergarten, we recognize the legitimacy of play as a means for children to learn and to achieve standards and tasks.

Kiota Kindergarten prioritizes the teaching and nurturing of children, and not just the teaching of content. We believe in active learning. We provide many hands-on activities to help your little ones grow and learn. We promote children's enthusiasm, initiative, and engagement in learning. Children's social and emotional well-being and eagerness to learn are necessary in order for them to absorb formally taught content.

Our integrated curriculum has been tweaked to borrow the positive attributes from different systems i.e. Montessori and Froebel. This in effect entrenches versatility in readiness for a dynamic world. The curriculum also incorporates Christian values and principles.

Age

Our school approach focuses on getting involved in activities to enhance learning. We have separate rooms for different age specific programs, aimed to maximise children's learning and potential at each stage of life.

We cater for children aged between 2 and 6 years.

Parents as Partners

We see parents as rightful partners in children's education. Kiota Kindergarten emphasizes on the participation of the parent in the children's education.

We are creating a learning community, where just like the children, all the adults (teachers and parents alike) have the opportunity and desire to learn and to grow.

Our Physical Environment

The Kiota Kindergarten physical environment has been carefully crafted to create a positive learning environment that enhances opportunities for your little ones to feel safe and supported.

The careful planning and the effective arrangement of space and classroom equipment facilitate learning experiences for children.

Our aim is to provide the highest quality child care and education service to all families regardless of race, religion, social or economic background, culture, sex, creed or abilities.
