A Christian multicultural School following British Curriculum guidelines

LOVE, RESPECT AND SERVICE TO GOD AND TO ONE ANOTHER

PERSONAL, SOCIAL & EMOTIONAL DEVELOPMENT

We believe our greatest strength is our ability to provide a loving and caring environment where every child feels special. Finding opportunities to develop the child's personal, emotional and social life is vital to the ethos of our school.

KNOWLEDGE & UNDERSTANDING OF THE WORLD

Christianity is an important part of life in our school. Through Christian values we help children to open their eyes to the world around them, to respect their own culture and those of others and to feel a great excitement for learning.

PROBLEM SOLVING, REASONING AND NUMERACY

We focus carefully on developing each child's ability to integrate mathematics naturally into their lives. We aim to provide relevant practical opportunities and to stimulate mathematical thinking.

COMMUNICATION, LANGUAGE & LITERACY

We encourage clear speech, good understanding of the English language, and well-developed listening skills. We teach literacy through an exciting phonics programme and a range of rhyme and song.

PHYSICAL DEVELOPMENT

We develop each child's skills and coordination through our specialist physical education programme and equipment. We make maximum use of our swimming pool.

CREATIVE DEVELOPMENT

Creative development is a key part of our curriculum. We encourage children to truly value their contribution to art, design, music, dance and drama.
