ST. AUSTIN'S ACADEMY

NAIROBI

FOUNDED 1971

ST. AUSTIN'S ACADEMY

Life Long

LEARNING

Situated in one of Nairobi's most exclusive suburbs, St. Austin's Academy was established in 1971 to provide a high quality education to students of diverse cultural backgrounds. Over the years the Academy has become a leading educational institution with a student body that includes over 40 different nationalities.

The Academy gives children the skills to live and work effectively in a technologically complex and rapidly changing world. We are committed to a holistic education which encompasses physical, social and moral as well as intellectual development.

Learning

The Academy seeks to inculcate the values of hard work and individual productivity in all students. We focus on students' individual talents thus building their self-assurance to compete successfully. We believe that education should be an enjoyable process. The Academy is committed to promoting ICT skills to facilitate learning throughout the school and across the whole curriculum. We expose students to challenges through sports, school trips and other co-curricular activities.

Curriculum

St. Austin's Academy is a Kenyan School offering the British curriculum. The students are prepared for SATs at Key Stages 1, 2 and 3, and then for GCSE and GCE examinations, which qualify them to be admitted to Universities all over the world. We cater for students from the time they turn 2 years of age and enter nursery, to 18 years when they leave for universities in the U.K, U.S.A, Canada, Australia, New Zealand, Malaysia, India, S. Africa, W. Africa, Uganda, Tanzania and here in Kenya as well.

Teaching Faculty

The Academy has well-trained, enthusiastic, hardworking and motivated teachers. They work with class assistants, lab technicians and grounds people to provide the educational breadth and balance necessary to respond to the challenges of life.

Cultural Experience

Although we offer the British based curriculum, it is considered important that children should value their own culture and respect others. We draw on the rich historical, cultural and geographical diversity of Kenya to give the students' academic development more meaning and depth.
